

How Would You Like Us to Personally Walk You Through The Exact Strategy Our Clients Use To Have Regular Bowel Movements And Get Their Life Back... Absolutely for *Free*?

From The Desk of: Jake Thurston

Dear Friend,

Let's talk about RESULTS for a second:

Every day, our Vital Gut Health clients are messaging us, raving about how they took control over their health.

Their first day in 20 years they haven't had pain in their abdomen...

Their first month where they emptied their bowels every single day...

Having the power to go out, work a job to provide for those that need them for the first time in 5 years...

In fact, if what's being sent to us is any clue...

In the past 12 months, Vital Gut Health has helped more people take control of their health and end painful, and debilitating constipation than ANY other company out there.

The only question you need to ask yourself is, **“Do you want to stop being powerless to fix this issue and have the control over your health to get your life back for you, and your family?”**

If the answer is YES, then I'd love to share with you how we're getting these kinds of results, and I'd like to share it with you for FREE.

Here's how it works...

Right Now, You're Probably Stuck on One of These 3 Things...

You need to get your health under control to protect your family and those that need you. Having the strength to work as many jobs or do whatever needs to be done to take care of your family is an absolutely necessity.

OR...

You are sick and tired of spending all of this money on diets and protocols that don't work. You've put so much burden on your family or yourself trying a bunch of expensive protocols and diets that don't work at all. You're absolutely fed up and so is everyone else around you...

OR...

Right now you feel helpless to fix your health which is spilling over into your relationships. You feel helpless to create the life and future you want for you and those that NEED you.

Which of those sounds more like you?

The good news is that whichever it is, my team and I can show you a plan that will help you finally have the health to protect, provide and love those that need you.

...and we'll do it for FREE.

Consider this:

These are the kinds of results we get for our clients every single day. If we can do it for them, why can't we do it for you?

Here's How To Get Our Help For Free...

We've set aside some time to speak to you over the next few days.

We'll get on the phone for about 45 minutes. On that call, we'll lay out a plan to help you do ANY or ALL of the 3 things we mentioned above.

This plan is going to enable you to **take control of your health and how you feel ...so you can protect and provide for not only you, but for your family...**

...even if **you've tried everything and nothing has worked.**

It's a bold promise...

But after giving countless individuals the safety of having their health, I feel very comfortable making it.

The plan we craft together will be SIMPLE, CLEAR, and light years ahead of anything you've heard from anyone else.

After all, we have a 100% success rate with our clients *for a reason*.

Our stuff works. And we know that if we work together and you stay coachable, decisive, and resourceful, there is NO limit to the power and control you can claim for your health and/or your family.

This invitation is going out to over 10,000 people right now, so as you can imagine, it's going to create a HUGE response.

That's why I need you to read this next part carefully:

This is NOT for Everybody. Here's Who I Can Help:

I'm VERY picky about who I'll speak with, and I have a strict (but reasonable) set of criteria that needs to be met in order for us to proceed:

1. You need to take 100% responsibility for your health and the welfare of those you care about most in your life.

This offer is for people who are looking to step out of the mindset that there is nothing they can do for this problem. People who are not willing to settle for what the doctor has told them. Those who are willing to accept that *there is a way* out of this and that it doesn't include a pill, a probiotic or an elimination diet.

But, if you're willing to settle for what your doctor told you. That IBS is incurable and you'll just have to live it with for the rest of your life - no offense, but this is not for you.

2. You MUST be a person that is willing to lay down all that you've learned and try a new, effect strategy. That means your'e coachable, decisive and resourceful. (Don't worry - we won't ask you to do anything weird.)

If you like to argue or sign up for things and just follow your original plan that didn't work, this is NOT for you. Maintaining that 100% client success rate is VERY important to me. Please be someone that is willing to do whatever it takes to take control of your health for you and for those you love the most.

That's it - if you meet BOTH of those requirements, we're good:

Here's What I Want You to Do Next:

If you meet the criteria above, and you'd like to talk about taking control over your health and how you feel, then I'll happily set aside some time for you.

Here's what to do next:

Head over to <https://vitalguthealth.com/talk> and you'll see our calendar. Grab whatever appointment time works for you.

Then you'll be taken to our quick application form. It's very fast and unobtrusive. I just need to know what you're dealing with, what you've tried to treat it and how long you've been dealing with it.

That's it!

The initial call will go 45-60 minutes, and it will be the BEST time you have ever spent working on your health.

WARNING - TIME IS A FACTOR!

This invitation is going out to 10,000+ people today, and there is only so much time available in the schedule.

It's physically impossible for me to work with more than a handful of people, so it is FIRST COME, FIRST SERVED.
